DETAILED ACTION

Priority

Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d). The certified copy has been filed in parent Application No. 09/846,952, filed on 4/27/2001.

Terminal Disclaimer

The terminal disclaimer filed on 9/26/2007 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of 7,161,616 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

Claim 10-12 allowed.

The following is an examiner's statement of reasons for allowance: Claims 10 and 12 require generating synthesizing an image of the surroundings of a vehicle using a plurality of cameras, the synthesized image having a plurality of areas of at least one pixel. The claims further require a plurality of image synthesis parameter groups that represent a correspondence between an area of a camera image and one area of the synthesized image, wherein each image synthesis parameter group has a corresponding filter parameter group which is associated with an area of the camera

image. The claims also require selection of a synthesis parameter group and filter parameter group based on a detected vehicle motion and an operating status.

The closest art is Katta in view of Karanovic which discloses generating a synthesized image of the surroundings of a vehicle using a plurality of cameras, where the synthesized image has a plurality of areas. These areas are associated with a particular camera depending on an operating status. Katta also discloses that images filling the upper portion of the synthesized image undergo a filtering operation in order to enlarge or reduce them in size whereas lower portions of the synthesized image are cut out parts of other camera images selected based on vehicle motion and operating status. However, Katta does not disclose a filter associated with each camera or area of the synthesized image neither does Katta disclose selecting a filter based on vehicle motion. Karanovic does not cure these deficiencies in Katta.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
